DISPLAYING ART ON YOUR PANELS

Black Fabric Display Boards

Our fabric boards are covered in a black fabric material called front runner (much like carpet) and are velcro compatible. You can apply **hook velcro tape/dots** to your posters or signs and hang directly on the panels. **Push pins, thumb tacks** and **staples** are also compatible with our fabric boards. No permanent fixings such as hooks, large gauge screws, nails or paint are to be used.

Also available:

These panels can also be installed for an additional cost with lighting and our gallery grade art hanging system and hooks. Available on one side or both sides of the board (2 wires and 2 adjustable hooks per side).
