WHAT YOU CAN USE ON YOUR BOOTH WALLS

Black Fabric Booth Walling

Our 2.4m high fabric booth walls are covered in a black fabric material called front runner (much like carpet) and are velcro compatible. You can apply the following to hang posters or signs directly on the booth walls:

- hook velcro tape or dots
- push pins
- thumb tacks
- staples

This walling can also be fitted with our **printable fabric velcro walls**. No permanent fixings such as hooks, screws, nails or paint are to be used.
